

## Company Profile

**Mr. Dharmendra Patel**  
(Managing Director)

**Mr. Nimesh Patel**  
(Managing Director)

Plastico Pumps was established in 1995 by our dynamic managing directors Mr. Dharmendra Patel and Mr. Nimesh Patel. They have extensive knowledge and rich experience in various aspects of pump manufacturing such as designing, manufacturing, troubleshooting, selection of mechanical seal, etc.

With the increase in demand and subsequent increase in the volume of production, the company is hiring people who are experts in the various field of pump manufacturing and is giving them the specific responsibilities to bring out their latent talent. At present, the company has knowledgeable staffs that strengthen various aspects of pump manufacturing. Moreover, the company is adding and expanding new facilities.

The company has state-of-the-art manufacturing and testing facilities that include CNC lathe machines, conventional lathe machines, drilling machines, grinding machines, lapping machines, plasma cutting machines, welding rectifiers, lifting and handling tools and tackles, electronic pump testing facility, etc.
